

US 60: Florence Junction to Queen Valley

Pinal County, Arizona

Dibble performed preliminary centerline staking, right-of-way staking, and topographic survey for the roadway design and plans to widen US 60 for approximately 14 miles in Pinal County. Survey work also included coordination with the project archeologist and geotechnical engineer working on-site. Right-of-way requirements were coordinated with the Arizona State Land Department.

Client:
Arizona Department of Transportation
